FEATURES

8 New Technologies on the Horizon

Are you making the most of the club's systems? Learn about several advanced technologies that offer clubs outstanding value at a reasonable cost, including unified threat management, data backup and virtualization and more.

16 Tablet Computers— The iPad's Impact on Clubs

Clubs are beginning to use iPad and iPhone technology in the club environment. Consider the potential impact this technology will have on clubs and their members.

22 Social Networking— Cornerstone of the Club Industry

Social networks are the cornerstone of the club industry. Why is social media planning so crucial for private clubs?

26 Articles from the Archives: Public Accommodation

As the National Club Association begins its celebration of 50 years serving the private club industry, *Club Director* will spotlight a series of feature articles from past issues that illustrate the many ways NCA leads the industry in keeping private clubs informed, engaged and protected. The first article in the series covers the landmark decision in 1988—New York Local Law 63—regarding public accommodation and a club's First Amendment right to control its membership.
