TO THE MEMBERS OF THE U.S. HOUSE OF REPRESENTATIVES:

We the undersigned organizations recognize that the current health care system of this country under the ACA is not working and is in need of serious and deep reforms. We support the legislation which has passed through the House's three committees as it attempts to address these problems through many provisions including those which alleviate burdens and reduce taxes on employers and others who operate within the health care sectors.

We commend and support the House for taking these steps while recognizing that changes will be needed as the legislative process continues through the House and Senate. We urge your support for the process and look forward to continuing to work with policy makers as this legislation is further refined.

Sincerely,
